PROFESSIONAL SUMMARY

Computer Science graduate with strong foundations in networking, cybersecurity, and software development. Experienced in building real-world technical lab environments, automating systems using Python, and designing secure network architectures. Passionate about solving complex problems, conducting security research, and building scalable digital solutions.

CORE SKILLS

- Programming & Scripting: Python, Bash, JavaScript
- Networking & Infrastructure: TCP/IP, Subnetting, VLANs, Routing, Switching, etc.
- Cybersecurity & Threat Detection: Network Security, IDS/IPS, SIEM Fundamentals, Threat Intelligence, Traffic Analysis
- Web Technologies: HTML, CSS, JavaScript
- Tools & Platforms: Linux, Git, VS Code, Cisco Packet Tracer, Wireshark, Snort

TECHNICAL PROJECT

- **SOHO Network Design & Implementation** — Cisco Packet Tracer
  - Designed and deployed a secure small office/home office network infrastructure.
  - Designed logical and physical topology for multi-device environments
  - Configured VLANs, IP addressing, routing, and wireless access
  - Implemented security rules and tested network performance and reliability

- **Intrusion Detection System (IDS) Lab** — Snort, Linux, Wireshark
  - Built a controlled IDS environment to monitor, detect, and analyze network threats.
  - Configured Snort with custom detection rules for ICMP, TCP, and port scans
  - Generated test traffic to validate detection accuracy
  - Analyzed captured packets using Wireshark

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science Oct 2021 - March 2025

- Edo State University Iyamho (Ranked 3rd best in Nigeria in 2018 by NUC)
- **GPA**: 4.33 / 5.00
- **Final Year Project:** Design and Implementation of an Event Management System

RELEVANT COURSEWORK

- Computer Networks
- Cybersecurity
- Operating Systems
- Software Engineering and Web Development

CERTIFICATIONS & TRAINING

- Cisco Networking Basics
- TryHackMe Cybersecurity Labs
- Hack The Box Training Labs
- CCNA Training
- CompTIA Hardware Maintenance training

ADDITIONAL INFORMATION

- Strong analytical and problem-solving skills
- Experience in technical documentation and reporting
- Passion for cybersecurity research, automation, and AI systems
